DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters: Drawing Fig. 1C is objected to because of the following informalities:

Regarding to Drawing Fig. 1C, the reference number 501 is duplicated in Fig. 4A and Fig. 4C and reference number 502 is duplicated Fig. 4C and Fig. 4D. These duplications introduce confusion in the disclosed specification because the single reference number 501 in drawing points to different subject matters in the specification. Similar confusion applies to reference number 502. The specification should also be updated to reflect the correction of reference numbers 501 and 502 in Fig. 1C.

Appropriate correction is required.

2. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowable Subject Matter

3. Claims 1-16 are allowed.

Examiner's Statement of Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance:

The prior art along or in combination fails to teach or make obvious the limitations for a communications network system that specifically comprises:

“a determining unit that determines whether a communications period of the transmitted data on the communications line having the ID code which is equal to the specific ID code which is set as a communications acceptance ID code is coincident with the predetermined communications period”, and

“a communications acceptance unit that accepts a communication of the data from the data transmission unit to the data reception unit only if the data provides the ID code which is equal to the specific ID code and provides the communications period which is coincident with the predetermined communications period determined by the determining unit” as recited in the independent claims 1 and 15-16.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard Chang whose telephone number is (571) 272-3129. The examiner can normally be reached on Monday - Friday from 8 AM to 5 PM.
